- *I am also a graduate of the Young Muslim Leadership programme ran by the Princes trust held in Oxford, the Sandhurst Leadership Development Challenge at the Royal Military Academy and the Interfaith Youth Core Conference for young leaders of faith in Chicago.*

Dear Delegate

I want to become a trustee for the British Youth Council as I feel passionate about Young people and the vital contribution they have to play in shaping our society. As my background shows over the last 10 years, ever since becoming a teenager I have given up my time voluntarily working on behalf of young people, representing them in organisations both locally and nationally. I have picked up key experiences and values that have left me with a better understanding of the vital contribution young people have to make in British society. I believe that I am now well equipped to take on further challenges and put my experience and abilities to further good use. I am also at the stage where I wish to develop on a personal level and to benefit from others with similar but unique experiences. I continue to have the desire and motivation to experience a wide range of challenging situations, developing new skills along the way, as well as honing those that I have already acquired.

If elected I will ensure:

- A focus on the **grassroots** working closely with local youth councils and local groups
- Increase **representation** across Europe and sharing best practice with European councils
- **Lobbying** the government with practical outcomes to give more opportunities to the youth
- Working closely with other UK based organisations on **common campaigns** for bigger impact

I am well aware of the precious work that the BYC does. It would truly be an honour for me to be involved in the organisation as a Trustee. I believe that I have the appropriate qualities to be an invaluable asset and to become a successful member of the BYC team and would appreciate your consideration in electing me to be a Trustee for the British Youth Council.
